### TBLI Roundtable Day 1 - Part 1 - Integrating ESG into the Investment Process

A roundtable discussion in cooperation with IPE  The world of investment is changing: asset owners and managers are becoming increasingly aware of the potential risk and value impact of environmental, social, and governance (ESG) factors, and their potential effect on an investment profile. But what's really involved in incorporating ESG factors into investment decisions? Can they make a material difference to investment performance? And just how do investors go
